

I am concerned that in the FCC's effort to promote Low Power F.M. stations we may lose K-LOVE Christian radio in our community. K-LOVE has been very helpful to me as it strengthens my faith in Christ and encourages me to serve in my community. I know of no other radio station with similar programming in our community. I am concerned that our community would lose out in Christian service because much of the needs which have been publicized by K-LOVE would no longer be publicized. They have also served as an effective bulletin board for Christians in our community.

Since Christians are instructed to serve the public I believe that our community would suffer loss if K-LOVE were not here publicizing the needs of our community. Please do not remove K-LOVE for the sake of Low Power FM stations in our community.

Thank you.

Dan Purkey
